TERMS AND CONDITIONS OF PH.D. ADMISSION OFFER

First Year Award: Your support for the first year of graduate studies (September 1, 2019 – August 31, 2020) is as follows:

Full Tuition for Fall Term 2019 and Winter Term 2020	-est value- \$ 52,000
Research Support for 12 months	-est value- \$ 32,600
GradCare Health Insurance for 12 months	-est value- \$ 3,400
Total Estimated Value of Award (based on non-resident fees)	-est value- \$ 88,000

Award Guarantee:

- Total award is guaranteed for 5 years or until completion of the Ph.D. degree, whichever is earlier.
- During your first year/semester, you will be supported with a fellowship, a graduate student research assistantship (GSRA), or a combination. In subsequent years/semesters, you may be supported with a fellowship, a GSRA, a graduate student instructor (GSI) position, or a combination, at the discretion of the department.

Award Terms:

- Award is contingent upon continued satisfactory progress toward the Ph.D. degree.
 - You must maintain a 3.5 GPA (on a 4.0 scale).
 - You must achieve all expected academic milestones (required examinations, achieving candidacy, etc.) within program deadlines.
- You must be actively involved in research, under the direction of an approved CSE faculty advisor as soon as possible but no later than the spring term of the first year, and must stay in Ann Arbor and be actively engaged in research for the first Spring/Summer term.
- You must enroll in a course schedule approved by a CSE academic advisor. The Department expects all students to complete 9 earned credit hours per term (Fall and Winter terms). (*University of Michigan minimum requirement: Students may enroll in no less than 6 earned hours per term when holding a GSRA or GSI appointment.*)
- If you are entering the program without a relevant master's degree from another institution, you are expected to complete the master's degree requirements within 3 terms. If you elect to terminate with a master's degree you will receive funding for, at most, 3 enrolled terms.
- You are expected to conduct yourself in a professional and ethical manner and complete the Responsible Conduct of Research and Scholarship (RCRS) requirements before advancing to Ph.D. candidacy (see rcrs.engin.umich.edu).
- Your monthly stipend will not be less than this original offer and may increase in future years.
- Spring/Summer funding is guaranteed only for May through August of the first year. Most students, however, receive research funding during subsequent summers.
- Tuition and mandatory registration fees are covered in full for the Fall (September - December) and Winter (January - April) semesters. Students do not take classes during the Spring/Summer (May - August) semester. Exceptions

must be approved by your CSE academic advisor and the CSE Graduate Programs Office.

9. In order to receive Spring/Summer stipend and health insurance coverage in year one (for your first summer, May - August), you must identify a CSE faculty member who agrees to supervise your Spring/Summer research, reside in Ann Arbor, and be actively engaged in research.
10. You will have the option of enrolling yourself and your dependents in one of the University of Michigan's health insurance programs.
11. Any other employment, on-campus or off-campus, must be promptly reported and approved by your CSE academic advisor and the CSE Graduate Financial Aid Coordinator.
12. Some external fellowships may require that you hold the position of GSI for at least one academic term. Students who must comply with this requirement will be expected to complete it within the first two academic years, and meet all training/testing and performance requirements.
13. You must perform all GSI, GSRA, or fellowship duties in a satisfactory manner. GSI employment is governed by the Graduate Employees Organization contract.
14. Students whose native language is not English must pass an English Skills for Teaching exam by the end of their first term.
15. Students are encouraged to pursue other financial awards, such as external fellowships. You may be asked to complete a FAFSA (Free Application for Federal Student Aid) form to assist the College of Engineering in matching you with the appropriate fellowship award. You will promptly report any other financial aid awards to the CSE Graduate Financial Aid Coordinator. Receipt of other financial awards may cause the department's contribution to your support to be adjusted.
16. The University requires background checks for all individuals who have an appointment or employment at the University. Because your funding offer includes the possibility, after the first year, of appointment as a GSRA or GSI, a background check prior to your first appointment in either one of these positions is needed. Your funding commitment is contingent upon successful completion of a background check, which includes successful resolution of any issues that might arise, prior to the commencement of your first appointment. If the background check is not successfully passed, the total award guarantee is void.

For more information about the policy, please go to the College website:

Information regarding the kinds of accommodations and services the University provides for graduate students who have disabilities may be found at ssd.umich.edu.

Signing below indicates you have read and agree to the terms and conditions of this award.

Accepting/Declining Award

Your decision must be indicated below by signing and returning this admission offer via email as a .pdf attachment to csegradstaff@umich.edu by the April 15th deadline, although an earlier response would be appreciated.

This offer is void if no response is received by the April 15th deadline.

☒ Yes, I have read the above, and accept this award and its terms. I will enroll in your program in September 2019.

☐ No, I decline this offer. I have decided to attend _____ where I have accepted an offer of a _____ fellowship, _____ research assistantship, _____ teaching assistantship.
